

24 February 1984

MEMORANDUM FOR: Director, Center for the Study of Intelligence

FROM:

Director of Training and Education

SUBJECT: Center for the Study of Foreign Affairs

1. On 22 February, I attended a regular meeting of the Foreign Service Institute (FSI) Advisory Board. I have attached a copy of the agenda for that meeting and a list of the participants for your information.

2. One of the subjects that the FSI people briefed the attendees on was FSI's Center for the Study of Foreign Affairs. Attached are several papers describing past and present activities of that organization. I gather by what was said at the meeting that there has been significant CIA participation in this Center's symposia and conferences. It might be useful if at our next Biweekly we discussed the relationship between CSI and the Center for the Study of Foreign Affairs.
